SIX MONTHS ... Gen. Joe Shelby, the Confederate

TERMS:

cavalry leader, appeared in St. Louis the other day and scores of his old comrades in arms flocked to his hotel to greet him. He is entirely out of politics and is living quietly on his farm, reappearing but rarely in the cities. Columbia is doing the right thing in arranging to celebrate her centennial next May. Hon. Wade Hampton has

been invited to deliver the centennial address. If the committee of arrangements will secure a very low rate of railroad fare from all- points in the State, the grand old city will have to entertain a very large crowd during the occasion. A bill has been introduced into the Kansas Legislature to confer the right of suffrage on women. It provides that a woman 21 years of age shall be entitled to vote at all general, special and muni-

bers are practically unanimous on the question of woman suffrage. Members of the Farmers' Alliance in Kansas declare any man who occupies a mortgaged farm through foreclosure to be a social outcast, and in many cases have proceeded to evict such people by force. The trouble with all force of this kind is that it fails to evict the wrong conditions back of the evil, and only intensifies them by making it harder in future to secure loans at a reasonable rate

The House Committee on Postoffices has agreed to report favorably the Senate Bill authorizing the Postmaster General to establish the free delivery system in all towns where the receipts from the Postoffices are \$5,000 or over. The bill has passed the Senate and Chairman Bingham, of the House Committee, is confident that it will go through the House as soon as the Postoffice Commitwee can secure a hearing. If the Bill becomes a law, Anderson will have the advantage of the delivery system.

The 1st of January being an interestpaying period of the year, about \$90,-000,000 has been let loose for further in vestments. Frequently this is one of the causes of a bull market in speculative securities, but aside from this output, the signs in the financial heavens indicate that the new year has begun auspiciously. Money is moving toward New York from the interior, commercial papers discounted at normal rates, and the wheels of trade are revolving without the friction observable a few weeks ago.

The Force Bill has again been shelved in the Senate in order to take up the appropriation bill. Seven Republicans voted with the Democrats. Opinion is still divided as to what will be the final result of the Bill. The Washington correspondent of the Atlanta Constitution says "unless all signs be false, the Bill is dead beyond resurrection." Thus far the Democrats have made a gallant fight. No greater political ability or parliamentary skill was ever exhibited on the floor of an English speaking assembly than has characterized the handling of their side of the question in this great party strug-

All Europe is in the close embrace of winter. While in some of the northern localities the cold is no more severe than usual, the extent of severe winter weather from the channel and the Baltic to the Mediterranean and from the Atlantic to the Ural mountains is something unprecedented in the experience of living man. A large portion of the territory visited by snow and ice is inhabited by people too careless, if not too poor, to provide themselves with sufficient protection against cold weather and the results of interrupted communication, and hence there is intense suffering, which furnishes an ugly contrast to the picture of festivities on snow and ice which the world of wealth and fashion is enjoying. The worst is yet to come, when the thaw brings on freshets and inundations to all lowlands, destroying means of communication and cutting off whole communities from the aid of neighbors when most in need of it. The wholesale destruction of manufacturing plants of small and large industrial establishments situated near watercourses, which seem almost unavoidable in case of a general and sudden breaking up of the winter, will increase enormously the number of unemployed and deprive

their families of their support. Stained and blue cotton costs the farmers of the South many thousands of dollars annually. The difference in the price between the finer grades and stained cotton is great, although the has seemed an impossibility to get stain- polite communication deserves attention. ed cotton white without injuring it. This problem has at last been solved by Mr. J. J. Williams, a successful farmer who lives at Ellenton, S. C., says the Augusta correspondent of the Atlanta agriculture in our State. I did this to aid that department in the first instance, Constitution. He takes his seed cotton and because I thought that Col. Butler and packs it in layers. Over each layer could reach many of my constituents he sprinkles water with a pine top, and whom I could not. The stained and blue cotton, when taken out, is clean and white, with the staple just as good as example of our State will be established, for this has been such a in ginning. The heat generated in the packing kills the germ in the cotton seed, but when the ginning is done the seeds but when the ginning is done the seeds easily let go all the cotton. Though the seeds are dead, the oil in them is not injured, and they are still saleable to the oil mills. This shows what a wonderful gain this may be to the Southern farmer.

CRIMES AND CASUALTIES.

DOYLESTOWN, PA., Jan. 15-The most singular circumstances of James S. Baker's death on Friday night of last week are just disclosed. The genial young Bethlehemite was driving home from a party with Miss Carrie Wismer, of Sole-bury. Mr. Baker suddenly exclaimed: "Carrie, dear, I believe I am going to die," and in a few minutes Mr. Baker lay dead in the arms of his lady friend. Carrie seized the lines and drove with one hand, while with her other arm she supported the dead form of her lover. The drive to the residence of Miss Wismer occupied half an hour. Young Baker's death was due to heart disease

COLUMBUS, IND., January 13.-A queer story comes from Williamsburg relative to Frank Helms, of that place, and Daniel Smith, of Carlos City, agreeing to swap wives. It is said that the Helms throughout the central and Southern part were disconsolate because they had no of Texas. The facts have been withheld were being favored with too many. By the swap Smith's wife, four children and a small farm were to go to Helms and Helm's wife and a small town property Smith. It appears that some time ago gro named Tom. Simmons, and in the fight which followed Brown was bitten on the finger by Simmons. In a little while the bitten finger began to swell. Then it the bitten finger began to swell. Then it got worse and it was not long before gangrene had set in. On Sunday Brown died. Coroner Dukes was summoned and an inquest was held to-day over the dead body. The doctors who conducted the post mortem examination say that Brown's death was caused by the bite, and that the bite of a "blue gum" negro in nearly Gen. Hampton has been defeated. For some time he has been troubled with dyspepsis, which is the only cause assigned Mr. White was president of the Graded School and of the Rock Hill library, a director in mills and banks here and interested in other enterprises. He had been to Sumter and was going home alone in a spring wagon, and just as he reached a dark place by a small stream, the deed was committed. He fell backwards on the floor of the wagon and the horse carried him on home, and after getting into the yard the wagon was overturned and Captain Maxey thrown out upon the ground, where he lay all night and was ound by his family early this morning. He was not dead when found, but died a few minutes afterwards. A load of buckshot was fired into the left side of his face and head. Two negroes, named Hampwhom Capt. "In 1862 Gaston, who is a native of New Hampshire, joined a regiment from that State and went to the front. He was captured, and while on his way to Andersonville prison escaped. He wandered about through woods and swamps for nearly three weeks. When famished with hunger and crazed by what he believed to be continued pursuit he decided to give himself up. One evening he scrambled out of the thicket and made his way to s large, old-fashioned southern home. cold rain had set in, and caring little whether he lived or died, he walked bold-

Last summer he was building a branch on the Georgia Pacific when he learned that his old love was a widow and had a family of five children. He immediately went to the old home near Eiberton, made himself known, and the result was a marriage, which took place yesterday. The pair will soon leave for Mr. Gaston's home in New York."

They Were Under Age.

GREENVILLE, S. C., January 22.-The runaway marriage, yesterday, of a very youthful couple, together with the subseuent developments, have created something of a sensation here. About & o'clock yesterday afternoon, Mr. J. C. Jeffries, a notary public of this city, was surprised at the entrance of the young couple into his office, and their reques for him to perform the marriage ceremony. Suspecting that they were under the legal age, he questioned them, and the replies being satisfactory, he performed the ceremony, and they went on their way rejoicing. The groom's name is William Hall, and that of the bride was Miss Lela Langley. Mr. Hall took his bride to his father's house, where they received the congratulations of many friends, and all seemed as happy as could be, until about 10 o'clock, when their dream of happiness was rudely awakened by the arrival of the bride's father, accompanied by a constable with a warrant for the arrest of the groom for abduction. He was taken before Trial Justice Davis and placed under a \$500 bond for his appearance at the next term of court The bride was taken home by her father who, in his affidavit for the warrant ewore that his daughter was not yet fifteen years old, and was under the legal age for matrimony. The evidence de veloped the fact that the groom is only about nineteen years of age. Much sympathy is felt for the young couple and it is feared that if the case is pressed Hall will be convicted and severely pun
